ADDITIONAL COMMENTS (1)

Food not as good as Melbourne.

Lightning talks and peering forums good if content and presenters are relevant and the mix of content is right.

Not too much of a fan of the Swisshotel. Lunch was much worse this year than all previous years. Accommodation was also not as good as other venues.

I'd like to see more presentations from the community, rather than vendors. A 50/50 split would be about right for me.

Would be good if registration payment accepts Corporate AMEX.

Great top is coverage and networking opportunities. Most sessions were well planned and cover the topics without going on too long

Occasional for me not every year

Loved ausnog 2014, look forward to going to Melbourne for next years conference

Great event, as always! I would have thought the next one would be in Brisbane :)

I enjoyed it, however encouraging "people" networking for those who have not attended before would be a great benefit - I enjoyed a lot of the talks, but did not get a change to speak to anyone at the event
