Changing digital landscape

The world has moved online!

...but this means more regulation to govern the Internet and its infrastructure

Regulatory Themes:

- Security
- Privacy and Data Rights
- NBN
- Online Safety

Security

- Security Legislation Amendment (Critical Infrastructure) Act 2021 *and* Security Legislation Amendment (Critical Infrastructure Protection) Bill 2022
- Telecommunications Sector Security Instruments
- Reform of Electronic Surveillance Framework
- Ransomware Action Plan
- Telecommunications Sector Security Reforms
- Telecommunications (Interception And Access) Amendment

Privacy and Data Rights

- Privacy Act Review; Online Privacy Bill
- Digital Platforms Inquiry 2020-2025
- Consumer Data Rights
- Customer Identity Verification Determination

NBN

- Record Keeping Rules
- Broadband Speed Claims

Online Safety

- Online Safety Act
- Social Media (Anti-Trolling) Bill

Concerns:

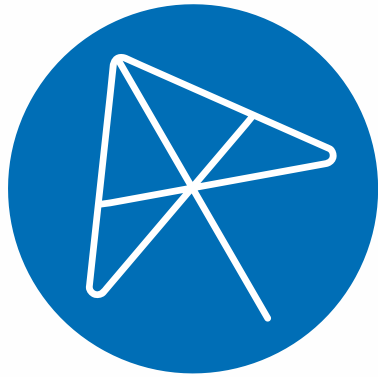

- Disproportionate obligations and costs for industry
- Lack of oversight over govt powers
- Lack of clarity and guidance
- Regulatory overlap
- Lack of meaningful consultation
- Increased regulatory bodies

Election Wish List

- Better internet for rural and regional areas
- Improve NBN and NBN Co performance
- Rebuild trust between industry and govt
- Improved access to market for small ISPs
